

Hot Rolled Steel Profiles

Half Rounds, Squares and Triangles

Product Data Sheet

Product Description

Hot rolled bars in standard profiles supplied in straight lengths. We also produce feather edge and square edge convex, and special 'designer' profiles.

Size Range

Hot rolled standard profiles are available in many combinations. In general, the thickness of the profile is the limiting factor:

Hot Mill 1

up to 15mm.

Hot Mill 2

up to 10mm.

Tolerances

The dimensional tolerances for standard profiles are:

Section

Generally +/- 0.5mm

Length

Standard + 300mm, Exacts + 50mm, Re-sheared + 6mm

Special tolerances and SPC analysis can be supplied by agreement.

Supply Condition

Bars are available in lengths up to 8.0 metres. Bar ends are cleanly sheared. Standard bundles are 2000 kg secured with tensioned bands. Smaller bundles available by agreement.

Ancillary Services

Re-shearing, cold straightening, pickling and oiling, special bundling and wrapping.
